

# icpe.65

On 5<sup>th</sup> August 2015 in Bucharest, Romania was organised the event icpe.65 where it was celebrated the first 65 years of ICPE in the field of electrical engineering. In the frame of icpe.65 was also presented the ICPE concerns in the field of e - mobility.

Dr. Paul Minciunescu has presented the European research project PLUS-MOBY – “Premium Low-Weight Urban Sustainable e-mobility” and he answered to questions about ICPE activities in the field of electric mobility. The audience was composed by scientific researchers, academic staff and ICPE partners who have common concerns on electrical engineering. A press conference was organised during which was presented the ICPE research programs in the field of e-mobility ([www.icpe.ro/ro/p/vw\\_beetle\\_ro](http://www.icpe.ro/ro/p/vw_beetle_ro)).
